

Length measuring kits

- Length measuring kit (metric) for length measurement of a measuring object that is moving; a complete solution, which can quickly and easily be implemented!
- Measuring wheels (Hytrel plastic for the textile industry, Vulkollan for the wood, paper, metal and plastics industries).
- Resolution of 1 mm for measuring wheels.

- Because of the encoder holding device, an optimal loading of the encoder shaft on the rack is achieved.
- An additional power supply for the encoder is not required, as the encoder can be powered directly from the preset counter.
